The popular KJC bullion storage service (**KJC Secure Vaulting**) is a premium, fully allocated and specific product storage solution allowing you, for example, to select any specific product (date, brand, design etc. of your choice) for storage.

All bullion stored in the KJC Secure Vaulting system is insured at full replacement value for total peace of mind and stored (by special arrangement between KJC and G4S) in the Sydney vaulting facilities of G4S.

G4S (LBMA members) are one of the world's leading integrated security companies, specialising in the provision of security products, services and solutions. They are also one of the world's largest private employers with over 611,000 employees and one of only seven official custodians offering vaulting services to the London Bullion Market Association (LBMA).

KJC have integrated this new storage solution (KJC Secure Vaulting) to be available for nearly every single bullion product on offer on the kjcbullion.com.au website. Simply select the products you wish to order as normal, then on the final stages in the checkout select the storage option.

Alternatively, clients can also choose to place items into storage when purchasing at the KJC retail counter or by phone and may also choose to enter the KJC Secure Vaulting system at a later stage at the client's discretion with items either purchased directly or indirectly from KJC.

Why store your precious metals with KJC?

PPSA protection

Did you know, that under Australian law, if for instance a storage company goes into liquidation and receivers are appointed, the receivers have the right to take all the goods held by the storage company regardless of whom they belong to? That means, unless the storage company has PPSA protection, if they went into receivership whilst your precious metals were stored with them, then your precious metals could be taken by the receivers and you would potentially lose ownership of your precious metals!!

KJC, has organised through our legal representation, PPSA protection with G4S, so no matter what happens with G4S in the future, your holdings held at G4S are safe and secure.

Please note, we do not believe any other storage companies in Australia have covered this gap in the law, which puts storage client's holdings at great risk.

Onus of proof

The KJC storage with G4S, is fully audited and controlled by a third party G4S and therefore in case of any claim, the holdings are fully documented not only by KJC, but also G4S. However, if you place your precious metals, for instance, in an independent storage/vaulting company, there is no third party or audit etc. so to speak, and the onus of proof as to what's actually in your box/safe at the storage company in the case of a claim would be totally on you.

There have been several instances recently, one in London, where storage facilities have been penetrated and the clients with goods in this facility could not accurately prove what they had in storage, these clients were refused insurance to replace their valuables. Remember, if you are storing your precious metals independently without 3rd party auditing and assurances, how do you ever prove what you put in there to start with and how do you ever prove 100% that each time you go there to check you have not removed the contents?

The KJC storage, at G4S takes away the onus of proof so you can sleep soundly knowing your precious metals are fully accounted for, ensuring you will never have a hassle in getting full replacement of your holding in the case of a loss.

Able to be transported immediately to major hubs around the world

No matter where you are in the world, your precious metals stored with KJC at G4S (a leading global security transport and logistics company) are able to be transported to all major hubs across the globe virtually immediately, giving you the ultimate in portability. This is a huge advantage in today's marketplace.

Able to be sold and liquidated at a moment's notice

Because the precious metal is being held with KJC at G4S selling is simple and immediate, all you have to do is instruct us, no transport required, no security risk and payment back in your account quick and easy.

Rates

The KJC Storage rates (GST inclusive) are calculated on a fixed sliding scale per annum (pa) percentage of the current value of your holdings (see table below). Storage values are allocated to all products on each individual account at the end of each quarter on a financial year basis (July 1st to June 30th) thus September (Q1), December (Q2), March (Q3) and June (Q4) at which time clients will receive their quarterly KJC storage bill. The KJC quarterly storage charges are totally non-refundable or adjustable where any items are removed and/or sold prior to the end of the current fiscal quarter.

To ensure fairness, for new clients entering the KJC Secure Vaulting system, their 1st quarter bill will be prorated to the current month. For example, a new client entering the KJC Secure Vaulting system on November the 20th would be billed storage for the month of November and December only in the December (Q2) quarter. New clients will be invoiced at time of purchase/inlay of storage.

Please note, for both billing, auditing and all other purposes each separate person and/or entity will be considered a totally separate storage account and this is irrespective of whether any individual and/or entities maybe related in any way. Also, a \$250 early exit fee will apply to any storage account cancelled (where all items are removed but not sold to KJC) if the storage account has not been running for a minimum of a 12-month period from date of entry.

Please also note, that a minimum full quarterly storage account charge of \$62.50 (or \$20.83 per month if prorated) applies per storage account. For example, Mr. Smith has 10 by 1oz gold Elemental bars in storage with KJC, which on the last day of the September calendar month, are valued at \$1650 each thus the total account value for the September quarter (Q1) would be \$16,500 and therefore the storage charge for the September quarter (Q1) would be 0.75% of \$16500 = \$123.75 divided by 4 which is \$30.93, however, as this is under the minimum charge of \$62.50 per quarter his September (Q1) quarter KJC storage bill would automatically revert to \$62.50.

Storage Rates Per Annum

(GST Inclusive)

Gold, Platinum, Palladium & Rhodium

\$0 to \$1 million - 0.75% pa
\$1 million to \$5 million - 0.65% pa
\$5 million plus - 0.55% pa

Silver

\$0 to \$100,000 - 1.5% pa
\$100,000 to \$5 million - 1% pa
\$5 million plus - 0.95% pa

*Please note a minimum charge of \$62.50 per full quarter applies per storage account

Dedicated express release

Clients that wish to have their items released from storage and want to have them collected and/or shipped urgently out of G4S will require a special dedicated G4S release in which case a special service fee \$275 (GST inclusive) will apply. Please note the \$275 fee is for a maximum of 200 kilos of nett precious metals weight after which additional charges will apply.

Sale of items in storage

All sales of storage items are free of any fees and charges and our usual buyback rates of the day will apply.

Please note, clients that have chosen to have their storage items placed into an official tagged and sealed G4S box and/or bag must sell the contents of a whole box and/or bag in its entirety.

Movement of storage items

Whilst the KJC storage is primarily held at the G4S facilities there may be times when the goods are pending delivery from one of our worldwide suppliers and/or held at the KJC facilities awaiting to be scheduled in with one of the quarterly KJC deliveries in and out of the G4S storage facilities.

Non-Direct from KJC

KJC will happily accept items into the KJC Secure Vaulting system that were not bought directly for storage from the KJC website (these orders are automatically placed into storage by KJC at time of the purchase). These may, for instance, be items previously bought from KJC that clients have taken physical possession of and are stored elsewhere, that the clients now wish to place into the KJC Secure Vaulting system and/or even items that clients may have purchased elsewhere or had possession of for many years etc., that they now wish to place into the KJC Secure Vaulting system.

Please note, all the standard terms and conditions apply and the market value for the bullion for the current quarter of entry will be determined by the price of the metal on the day of entry into the KJC Secure Vaulting system.

Special Service Fees & Charges

(GST Inclusive)

* Express dedicated release (Up to 200 kilos in weight).
\$275 per release.

* Early exit fee-applicable to cancelled storage accounts (where all items are removed but not sold to KJC) if the storage account has not been operating a minimum of 12 months from time of entry.
\$250 per account.

Special Services

Collection of storage items from the KJC retail store

Clients who have had KJC storage accounts open for over a 12-month period that wish to remove all their items from storage and collect them can do so free of charge at the KJC Sydney CBD retail store, however, 30 days written notice must be given and storage releases are only available coinciding with the KJC Secure Vaulting billing cycles, thus, at the end of each quarter on a financial year basis (July 1st to June 30th), therefore, September (Q1), December (Q2), March (Q3) and June (Q4). Please note, a "dedicated express release" is available for those clients who need their storage items removed immediately, however, a special service charge will apply, please see below for details.

Please note, clients that have chosen to have their storage items placed into an official tagged and sealed G4S box and/or bag must remove the contents of a whole box and/or bag in its entirety.

Shipping of storage items

Clients who have had KJC storage accounts open for over a 12-month period that wish to remove items from storage and have them shipped will not incur any extra charges other than our usual standard postage and insurance rates (see the KJC website for details and/or ask for a quote), however, 30 days written notice must be given and storage releases are only available coinciding with the KJC Secure Vaulting billing cycles, thus, at the end of each quarter on a financial year basis (July 1st to June 30th), therefore, September (Q1), December (Q2), March (Q3) and June (Q4). A "dedicated express release" is available for those clients who need their storage items removed immediately, however, a special service charge will apply, please see below for details.

Please note, clients that have chosen to have their storage items placed into an official tagged and sealed G4S box and/or bag must remove the contents of a whole box and/or bag in its entirety.

Optional G4S Official Sealed and Tagged Storage Containers great for SMSF

We offer two, optional and unique, G4S sealed and tagged solutions for long term secure and fully segregated storage. Each serial numbered box and/or bag takes up to 15 kilos or 500oz in nett precious metal content and is ideal for clients such as self-managed superfunds, large corporates and/or large private investors who require fully segregated storage with full audit capability.

G4S Sealed Blue Hard Plastic Box \$50each

Measuring (W) 25cm x (L) 13cm x (H) 10cm and made of heavy duty plastic, these boxes with official G4S logos have a slide lid and are able to be sealed with an ultimate metal wire serial numbered tag.

The only way to ever open this is to use bolt cutters which gives the assurance that your exact same items placed into the box will come back to you if you ever wish to retrieve your items from KJC storage.

Clients are able to come into the KJC store and personally place their items into the G4S blue box and then seal it with the metal serial numbered tag and record the seal number. KJC will then have the box placed into the G4S storage facilities and the seal number will be recorded by both KJC and G4S and KJC will then specially allocate this sealed box to the client's name and/or entity for auditing purposes.

For storage clients, who are unable to physically come into the KJC retail store (eg country, interstate and overseas based clientele), KJC will do this on your behalf and we can provide copies of photographs and videos of the actual products and process as they are placed into the G4S blue box and subsequently sealed.

These boxes are ideal for large gold purchases e.g. they will fit 15x kilo gold bars and also 50x 10oz, 30x 500g or 60x 250g which would add up to the total nett weight of 15 kilos per box. Silver likewise works well for 15x kilo bars or 5x 100oz bars.

Alternatively, you can mix and match the precious metals you would like to include as long as it fits in the container (if unsure please check with KJC first) and weighs no more than 15 kilos or 500oz in nett precious metal content.

G4S Sealed Hessian Bag \$27.50each

These strong hessian bags with official G4S logos are specially made to carry and/or store precious metals and they are able to be sealed with a serial numbered hard plastic seal.

Ideal for larger bullion items like monster boxes of silver coins or large quantities of gold coins and/or smaller gold bars, each bag takes up to a maximum of 15 kilos or 500oz in nett precious metal content.

Clients are able to come into the KJC store and personally place their items into the G4S hessian bag and then seal it with the hard plastic serial numbered seal and record the seal number. KJC will then have the hessian bag placed into the G4S storage facilities and the seal number will be recorded by both KJC and G4S, and KJC will then specifically allocate this sealed hessian bag to the clients name and/or entity for auditing purposes.

For storage clients, who are unable to physically come into the KJC retail store (eg country, interstate and overseas based clientele), KJC will do this on your behalf and we can provide copies of photographs and videos of the actual products and process as they are placed into the G4S hessian bag and subsequently sealed.
